phonetics /fəˈnɛtɪks/ n. (from the Greek: φωνή, phōnē, 'sound, voice') is a branch of linguistics that comprises the study of the sounds of human speech. (Hint: The first syllable in the word phonetics is FUN)

INTERNATIONAL PHONETIC WORKSHOP

DO YOU WANT TO...
Learn a way to scientifically notate speech sounds?
Modify your own dialect or accent?
Receive extra help with IPA?
Understand transcription with ease?
Channel your excitement about studying dialects and accents?

If so, then this workshop is right for you.
